LOCAL GRAIN AND PRODUCE.

Little New to Note in the Local Mar-

kets-Changes Few in Values.

As one passes along the wholesale streets

there is little worthy special mention. AS

for some time past, wholesale grocers are

selling about an average quantity of heavy

and beans, indicating that people are buy-

ing only the real necessities of life. Fancy

groceries meet with slow sale. At the dry

goods houses the sales of the more common

lines of goods keep up well, but the finer

goods are still in store. On Commission row

there is considerable activity with the ap-

proach of the holidays, and the confection-

ery houses are pushing business day and

night, this being their harvest. Prices range

about as for some days past. Oranges were

never selling on this market lower than at

present. The provision market continues

The local grain market is more active

than before the reduction in east-bound rates; still there is a dragging tendency

which it is difficult to explain. Dealers and

Carlisle's Stand on a Whisky Tax Was Known of in Advance.

At New York, yesterday, money on call was easy at 101% per cent., the last loan being made at 1, closing at 1@11/2 per cent. Prime mercantile paper, 31/201/2 per cent. reach 82,500 and 35,900 shares, respectively. Increased activity marked the dealings on the Stock Exchange yesterday. Judging by manipulation of the Distilling the operators in that stock were aware of the nature of Secretary Carlisle's report some time before the document was given to the general public. A heavy pressure to sell was noticeable during the latter part of the first hour of business, for which there was no apparent reason until it was learned that the Secretary of the Treasury had recommended an increase in the spirits tax, suggesting also that it apply to the existing stock as well as to the future supply. As the American Distilling Company has been banking on obtaining the benefit of the increased tax on some 90,000,000 gallons of spirits now in bond, without counting on what it expects to manufacture before the increase went into effect, Carlisle's proposition was in the nature of a decided attack, and holders of this stock sought in large numbers to liquidate their holdings on the best terms possible. The insiders who first obtained the news had the best of

ings, and before the downward movement

was checked, shortly before noon, a decline

of 44 per cent. had been recorded. Then

followed a recovery of 11/2, a reaction of 11/2 and a rally of 11/8, the final sale being

and the sales reaching nearly 92,000 shares.

HARD WORK TO RALLY

Chicago Grain Stiff in the Joints Since the Last Knock Down.

Wheat Closed 1-4c Higher, with Corn and Oats Following and Provisions Strong with Pork Up.

CHICAGO, Dec. 20 .- Bradstreet's statement of the visible, showing a lighter increase than was expected, and reports of buying for export, sent wheat up a trifle to-day and May closed 4c higher than yesterday. Corn and oats gained 1/3c and 1/4c, respectively. Provisions were strong, then weak and strong again at the close, with pork and lard slightly higher and ribs a

Wheat began the day with May unchanged at 66%c and receipts light. Chicago received 104 cars, against 196 a year ago, and Minneapolis and Duluth reported a total of 335 cars, as compared with 689 last year. The Liverpool wheat market was reported steady at the opening, and May advanced a trifle and held steady near the opening price for an hour. New York exports, however, showed but 16,000 bushels of wheat, and caused the first break of the day. Bradstreet's statement of the visible showed an increase on both coasts of 1,-185,000 bushels and caused further weakness. But the report also showed a decrease of 1,800,000 bushels in stocks affoat for and in Europe, which, with an increase of 300,-000 bushels in Australian stocks, made a net increase of but 85,000 bushels, and with this showing prices rallied. The bullish effect of the report was immediately followed up by the announcement from Baltimore that some purchases for export had been made there to-day. Closing cables from Liverpool and the continent averaged firmer and wheat closed firm, with May at the top figures of the day. May opened at 66%c, advanced %c, declined %c, railied %c and advanced %c, to close at 67c. The corn market was generally firm, with fluctuations confined to 14c. Lighter re-ceipts than the estimate was a bullish influence, and John MacDougal bought freely. May opened unchanged at 38%c, and after declining 1/8c, in sympathy with the early slump in wheat, advanced 4c, and closed at the top figures of the day at 39c Oats were firmer on light receipts and small stocks in store. May opened 1/3c off,

May closed at the top figures of the day at Provisions opened near yesterday's closing prices, and with smaller hog receipts than the estimate and some covering by shorts, advanced. The market was soon flooded by offerings at the higher prices, however, and, aided by a drop of 10c in prices at the yards, the free selling sent prices down again. Some buying near the close caused a rally, however, and the loss was overcome. Compared with last night. January pork is 21/20 higher, January lard 05c higher and January ribs .0216c lower. Estimated receipts for to-morrow are: Wheat, 110 cars; corn, 310 cars; oats, 130 cars; hogs, 28,000 head. Leading futures ranged as follows:

at 30c, and advanced 1/2c, later advanced 1/4c,

nelped by light estimates for to-morrow.
